

## **INTTRA Ocean Carrier Network**

INTTRA is the ocean shipping's e-marketplace where companies go for ocean shipping efficiency and increased logistics insight. INTTRA can help shippers manage all of their ocean shipments with multiple Carriers in one place, helping companies achieve service excellence goals in a profitable and time efficient manner. Connecting over 30 shipper companies with more than 60 leading Carriers and NVOCCs, INTTRA streamlines the ocean trade process. Over 800,000 container orders are initiated on the INTTRA platform each week, representing more than one quarter of global ocean container trade.

## Below is a comprehensive list of all Carrier and NVOCC partners integrated on the INTTRA network.
